

(Nutrition) How to Document Findings

All risk codes that apply will be assigned (may be system or CPA assigned), back up documentation for certain codes is required. Risk codes will be updated throughout certification. This can impact high-risk referrals. The nutrition chart form has a “Y” or “N” system. If something is found out of compliance, circle “N”. If everything in that topic area is in compliance, circle “Y”. It is a finding if any part of the chart related to that area is out of compliance, so don’t circle both no and yes, it’s an either or system.

See [Nutrition Findings](#) in the State Plan attachments section.

If you have any questions with this form please contact Lacy Little at 444-5923 or Chris Fogelman at 444-5285.
